## HIGHLIGHTS

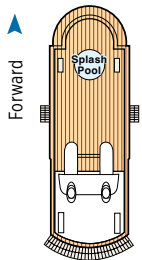

- Coral Princess is the first MedallionClass 'smart ship' to arrive in Australia and will revolutionise the way we cruise, maximising our guest's priceless holiday time.
- The MedallionClass technology offers highly personalised and hassle-free service to guests from touchless check-in and keyless stateroom access to on-demand food and drink delivery.
- Every Princess guest receives a free Medallion device that talks to 7K+ sensors connected by 116km of cable around the ship. Guests can use their Medallion (the size of a dollar coin) to interact with every stateroom TV, over 100 touchscreen portals around the ship or via the free MedallionClass app on their smartphone. MedallionClass is simple to use and free.
- Coral Princess was custom built to navigate the historic Panama Canal.
- Coral Princess will sail on the longest-ever world cruise from Australia visiting 47 spectacular ports across 32 countries for 110-nights departing 30 April, 2024.
- At 54 metres in height, Coral Princess is just under half the height of the Sydney Harbour Bridge.
- Stretching 295 metres – Coral Princess is nearly two times as long as the Sydney Opera House and more than 23 standard Sydney buses in length.
- With 1,545 passenger staterooms that can host up to 2000 guests at any one time, Coral Princess is almost double the size of Sydney's largest hotel, The Hyatt Regency, which has 888 rooms.
- If the ship's length were to be measured against the height of Brisbane's tallest tower, the Brisbane Skytower, it would be 25 metres higher than the top of the tower.
